

The Biomarker Catalogue 2004

Environmental Applications:

Pollution from Petroleum Products

Surfactants

Phenol and Phenol Analysis

PAH Analysis and PAH Mixtures

Novel Internal Standards for PCBs, PBDEs, Dioxins and Furans:

Polychloroalkanes, Volatile Hydrocarbons, Organotin Analysis and Other Applications

Petroleum and Fossil Fuel Applications:

Geochemical Analysis and Petroleum Exploration

Petroleum Analysis and Petroleum Products

Other Applications

Individual Compounds by Chemical Groups:

Biomarkers and Hydrocarbons

Naphthenic acids

Sulfur Compounds

PAH

Nitrogen, Oxygen and Sulfur Heterocyclic PAHs

Nitro-, Amino-, Hydroxy-, Methoxy- and KETO-PAHs

Persistent Organic Pollutions, Surfactants and Aryl/Alkyl-Tin

Narcotics/Pharmaceuticals, Derivatization Agents and GC-IRMS standards
